# ABOUT US!

We are Conglomerate Business Solutions Pvt Ltd. ! We're a group of people dedicated to #OurMission. Working every day to live our values, meet customer needs, and develop innovative solutions that help solve the world's toughest challenges. What are you passionate about? We have the perfect match.

Innovative ideas & solutions don't happen overnight. It takes time, patience, and compassion to develop a Integral Infotech that people love. But when the day breaks, you should be proud of what you accomplished. You did it 😊.

Creative people are the linchpin of every creative process. So for anyone who wants to succeed—whether they've got a fresh idea or are just starting out on the road of self-expression—we want them to live life without limits so they can create whatever.

It's not always easy to find a cost-effective solution to your problems. But here at Integral Infotech, we provide you with the solutions you need. Our experts can help you find a cost-effective solution for your challenge.

# OUR SERVICES

## Surveillance & Security Solution

Transform Your Labor-Intensive, Expensive And Sprawling Surveillance, Email, Web, Network, Server And Endpoint Security Deployments Into A Fully Managed, Automated And Integrated Security Solution Designed For Today's Risk Environment.

## IT Infrastructure Solutions

We believe in being customer-centric. Our Infrastructure Solutions help you transform your urban life and give you a competitive edge.

Are you thinking about modernizing your data center or looking for a reliable offsite disaster recovery? Are you waiting to see if the new Project X is going to include those new features? Are you paralyzed from the daily onslaught of IT updates? Want to know more?

## Structured Network Cabling

Structured cabling is the backbone of any organization. It provides the pathway for data and voice, as well as other connectivity such as network media and intercoms. When you think about all that we do to provide a cost-effective, reliable and intelligent solution for our customers, it starts with cable installations.

Find out how we're advocating the importance of structured network cabling services.

## IoT Solutions

IoT is opening up exciting horizons for retailer-customer engagement. But with access to your customer's digital world through IoT solutions from Integral Infotech, you'll need more than a great deal horizon to take them home. You'll need a meaningful engagement, which requires thoughtfulness and intentionality, not just trying to get the click.

## Managed Server Solutions

Are you struggling to keep up with your data needs? Keep day to day operations running smoothly? We're living in an era where information is power. So that's why at Managed Servers Solutions, we work hard to ensure that you have the control over your servers, to help you run your business better.

## Wireless Networking Services

#wirelessnetworking #ssid #wifi #switch #netgear #powerlineadapter

In order to provide a more reliable and faster wireless networks, we have been working with the IT professionals to analyze the network strength and find equipment that can help.

## Embedded Design System Solutions

Bet you didn't know that with Embedded Design System Solutions, you can experience faster design time, lower hardware costs, increased engineer efficiency, and improved time-to-market for your embedded systems!

Don't be left in the dust. The Embedded Design System Solutions team has been innovating for over a decade and is excited to provide you with the tools you need to be an industry leader.

## NAS/SAN Storage Solution

You can't be too cautious with your digital assets. The #NASstorage solution is the perfect place to store the files you don't want others to see.

Don't leave your sensitive information on #clouds or #phones. Store it in a NAS storage solution so you have more peace-of-mind.

## Cloud Solutions

Any enterprise-level company can benefit from a cloud solution.

Is your head spinning with all the possible cloud services out there? Don't worry, we're here to help you decide which is best for your team.

# KEY SOLUTIONS PROVIDED BY US !

- **Industrial Internet of Things. (IIoT V4.0), PLC & Scada Integrated**
- **Integrated command & Control center.**
- **Process Automation.**

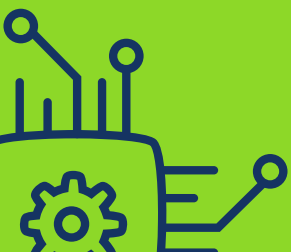

- **Industrial backhaul Network**
- **Surveillance & Security systems**
- **Smart entrance solutions**

- **OEM & ODM for IoT devices.**
- **Sensor Development**
- **Cloud & DC solutions.**

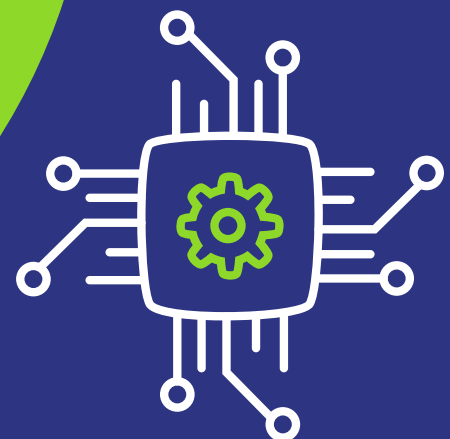

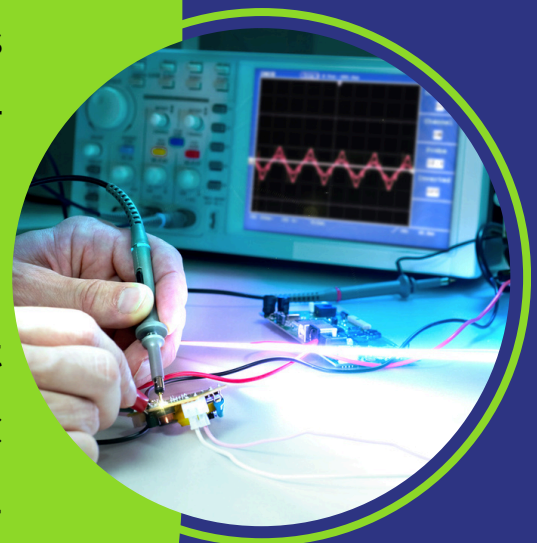

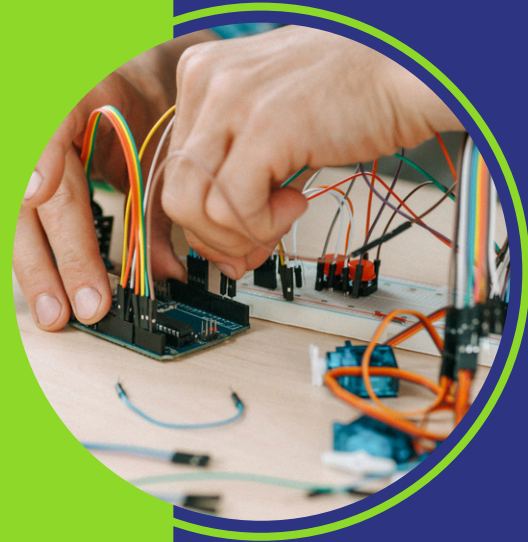

- **SMART BMS .**
- **Smart Utilities.**
- **Smart Transportation.**

# COMPETITIVE ADVANTAGES !

- State of the art Research and Development unit with one embedded electronics lab and lot lab.
- Equipped with most experienced industry veterans from different tech circle.
- Connected with West Bengal University of Technology (WBUT) for knowledge & technology exchange
- Already executed some prestigious automation & control system project for potato cold storages and food processing industry.
- Tech team consists with different skill set person.(Biz: - Instrumentation & PLC programming, Micro-python, LORA-Communication, Web application :- LARAVEL, D3JS, Flask)

# GLIMSE OF SOME EXECUTED PROJECT

**Project : Digitization of Tea Blenders for 7 Different Chambers**

**Client : TATA Consumer Products Limited (TCPL)**

At TCPL we collect all the tea blenders data and operator data accordingly different chambers ran by , and store all the data to the cloud up-to 1 years.

**Project : Automation and Control of HVAC Systems with Web dashboard.**

**Client : USHA Food Storage Pvt Ltd (UFSPL).**

UFSPL mostly involved in the business of multi vegetables cold storage and process business, at UFSPL with did automate the RAC system and they can control the system from WEB dash board, it will also can generate alert for any others critical parameters.

**Project : Operator and Machine data collection & Digitization of the Factory.**

**Client : Utkarsh India Limited (UIL)**

Utkarsh India is the manufacturer of CPVC / UPVC pipe and GI based Iron structure and different kind Pre Fabricated Structure (PEB) with 10 lacs Sqft manufacturing plant based in Kolkata. At UIL we synchronize the machine with operator behaviors' and store all the data to analyze the operators psychology with machine production pattern.

# OUR ONGOING PROJECT

**Project : Digitization of Rolling mill (Integrated Steel plant)**

**Client : Satyam Iron and Steel Company Pvt Ltd (SISCO)**

At SISCO we collect all the rolling mill data from "Allen Bradley" PLC System to local on premises server. We will visualize the data to the local level dash board with upcoming production forecasting and down time prediction.

**Project : Design and Development of control panel for Smart Pole.**

**Client : Utkarsh India Limited (UIL)**

Utkarsh India is the manufacturer and exporter of Highmast Pole, Octagonal pole and GI based Iron structure with manufacturing plant based in Kolkata. we are designing and developing smart panel for smart pole on behalf of Utkarsh India Limited.

**"We cannot solve our problems with the same thinking we used when we created them"**

**- Albert Einstein**

# CLIENTS FEEDBACK

## **Somnath Banerjee,**

**IT Head, Utkarsh India Limited**

We feel immense pleasure to work with Conglomerate Business and their associates companies. As their team easily understood the pain point of metal industry specially for UIL, that helps us to mature the project on time.

## **Avirup Mukherjee,**

**Operations Head, TATA Consumer Products Limited**

We did some process improvement project with Conglomerate Business and their associate companies. Embedded and Instrumentation team is very much efficient to design the solutions with economic way. We wish them success in future.

## **Prodip Mukhopadhyay,**

**Ex-MD, WEBEL (West Bengal Electronics Industry Development Corporation Limited)**

We did some project jointly with team Conglomerate on surveillance ,networking and access automation domain for one of our Tech-Park  
We feel immense pleasure to work with them in future.
